- Song 001 is a demo, so the sheet music is not included.
- Due to copyright restrictions, some of the scores are not included.
- Parts of the score may differ from the original version.
- In some cases, the score time signature and metronome timing may differ, but this has been done to make practice as easy as possible.
- The  $\nabla$  mark on the sheet music indicates a section where the Phrase Repeat function is used.  
The  $\textcircled{S^{**}}$  mark is compatible with the Keys to Success step numbers.
- (onC) and other on-bass code markings on the score do not appear on the instrument's display.
- In categories other than "Learn to Play", songs have a final step at the end of the song that is not one of the step numbers.
- Songs 117 to 129 are duets that have been created for two people to play. The numbers above the notes indicate the placement of the right hand, and the numbers below the notes indicate the placement of the left hand.

All songs have a finishing step in which you can practice playing all the way through the selected lesson song.

When you complete all the steps given for the selected song, three stars will appear on the instrument's LCD display. Try to get those three stars!

Which song should you choose?

- If this is the first time you've played a keyboard, we recommend the basic version of an easy song such as "Twinkle Twinkle Little Star" or "Ode to Joy".
- If you only have a little experience on the keyboard, the Basic sections are the best place to start. The Basic section provides many hints that will make the Advanced section easier.
- Going through the steps in numerous songs is a great way to become familiar with the keyboard. If you find a step you really enjoy and learn to like the song as a result, you're well on your way to mastery!

Before beginning each step, listen to the performance while reading the complete score. Doing this will give you a good mental “image” of the song’s structure and flow. When you have an overall feel for the song, press the [  KEYS TO SUCCESS ] button and start practicing the steps.

**Song No.077** **Basic**

## Twinkle Twinkle Little Star

~ With Step Map ~

You know the melody but are afraid that playing with both hands will be difficult? Not at all! We've made it easy by dividing it into two-measure segments.  
Just learn the three patterns used and you'll be able to play the whole song!

### Step Map

This lets you know where you are in the practice program. It functions as a “map” that indicates what you’re practicing in each step.

Keyboard diagrams make it easy to position your hands on the keyboard.

This indicates whether you'll use your left, right, or both hands.

Important practice points! Be sure to read these.

**Step 01** 

**The First Step (The first 2 measures)**  
First locate the keyboard position then try playing slowly.

To begin, relax and find the keyboard position.

The keyboard position is the same as for the score above!

**Short Break**

There will be a short break before you need to play the next note. But it might not be too long to be ready!

**Lead-ins (“...three, four!” etc.)**

Wherever you see a lead-in like this you will hear a cue to start playing, so don't miss it!

Song No.082 Ode to Joy **Advanced**

**Step 11** **Parallel Thirds - “In Paradise”**

Now let's practice playing parallel thirds with the right hand, with beautiful orchestral backing. Start by playing just the top note to get a feel for the line, then after a short break add the note a third below.

**Step 12** **Diligent Practice Time**

This is the last key section for the right hand. It starts with the syncopation we first saw in the basic version. Practice through to the end of the melody.

**Musical Glossary**

Special terms are explained in the Musical Glossary on pages 65 - 66. Try to learn them all.

**Number of Repeats**

The number of repeats might be different for each step. Repeated practice is the key to improvement!

A score of 60 or higher means you pass!

Your reward is a round of applause... or a rousing ovation for an even higher score!

**Step Practice Hints**

Some of these hints are useful at any time...

- If playing with both hands is difficult, it's OK to practice one hand at a time. Sometimes it's the fastest way to learn.
- Note names are written on the score in some steps. If you encounter notes you're not familiar with elsewhere, feel free to write in the note names yourself.
- Listen to the lead-in carefully so you'll know when to start playing.
- If you'd like to practice at a slower tempo, simply press the [TEMPO/TAP] button and use the [-] button to reduce the tempo until it is easy to follow.
- Depending on the selected step the metronome may initially be ON or OFF. You can also switch it ON or OFF yourself.
- The Waiting function makes it easy to find the notes to be played on the keyboard. This can be a great way to prepare for a lesson.
- You can use the [PAUSE] button to take a break during longer steps. You'll still get the appropriate number of points when you finish the step.
- Use the “Song Volume” function to reduce the accompaniment volume, or the “M.Volume” function to increase the keyboard volume to hear what you're playing more clearly.

**Play Along with the Learn to Play Orchestra!**

During normal Song Mode playback you can use the PART buttons to mute the orchestra parts. When you've mastered a song and earned your three stars, select the Song mode and have fun playing along with the orchestra.

## Musical Glossary

- Monophony** Single notes played independently.
- Polyphony** Multiple notes of different pitch played simultaneously.
- Polyphonic Performance** The act of playing multiple notes simultaneously.
- Semitone and Whole Tones** Regardless of whether the keys are white or black, the pitch interval between adjacent keys is a semitone. Two semitones make up a whole tone.
- Interval** The difference in pitch between two notes is known as an “interval”.
- **Third** A “third” is the interval between three whole tones. In the C diatonic scale (that’s the scale without sharps or flats: C-D-E-F-G-A-B) the interval between C and E is a third, as is the interval between E and G.
  - **Sixth** A “sixth” is the interval between six notes of the diatonic scale.
  - **Octave** An “octave” is an interval of eight diatonic notes.
  - **Playing Octaves** “Playing octaves” is a performance technique in which notes an octave apart are played simultaneously.
- Phrase** Phrases are sections of a melody that naturally stand on their own, much like sentences in a paragraph. No specific length is defined.
- Obligato** A separate melody that has a similar contour to the main melody.
- Counterpoint** A separate melody that is harmonically related to the main melody, but has independent contour and rhythm.

### Thumb Under, Finger Over, Finger Ready, and Finger Change

Piano-specific fingering techniques that make keyboard fingering as smooth and easy as possible.

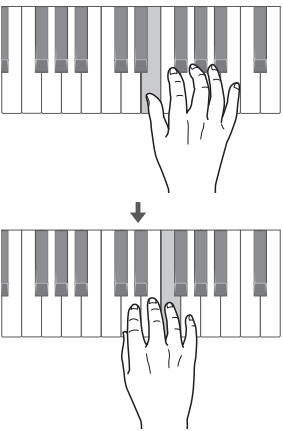

**Thumb Under** The thumb (finger 1) moves under another finger that is playing a note.

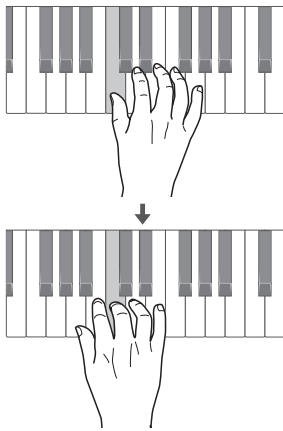

**Finger Over** A finger moves over the thumb (finger 1) while the thumb is playing a note.

**Finger Ready** While one finger is playing a note, another finger moves into position to play the next note.

**Finger Change** A finger that is playing a note is replaced by another finger.

- Staccato** Play short, disconnected notes. Indicated by dots above or below the notes , or "*staccato (stacc.)*" written on the score.
- Legato** Play smoothly connected notes. A slur marking  indicates the notes to be played legato, or "*legato*" may be written on the score.
- Slur** The slur marking indicates notes to be played legato. It can also be used to define musical phrases.
- Tenuto** Play notes for their full length. Indicated by short lines above or below the notes , or "*tenuto (ten.)*" written on the score.
- Tie** A tie joins two notes of the same pitch to form one long note, the length of which is the sum of the lengths of the joined notes.
- Fermata** Pause briefly, and then carry on.
- Syncopation** Unexpected variation of the normal strong-weak pulse of a rhythm.
- Auftakt** This refers to a melody that starts on the weaker upbeat before the normally accented beat at the beginning of a measure.
- Arpeggio** An arpeggio is essentially a chord played one note at a time, similar to the effect of strumming a harp.
- Glissando** A slide produced by running a finger or the heel of your hand up or down the keyboard.
- Chord** Harmonic structures created by adding intervals of thirds.
- Harmony** The pleasing resonant effect produced by playing multiple notes of differing pitch simultaneously.
- Ornament** A musical flourish that is added to "ornament" the melody line.
- Grace Note** An ornamental note played immediately before the main melody note.
- Turn** A musical ornament that begins one note above the melody note, descends to one note below the melody note, and then returns to the melody note.
- Expression Directive** Notes at the beginning of a score describing how the piece should be played.
- Ensemble** A number of instruments and/or voices performing together is an "ensemble".

# Step 01

## Warm-up Exercise - "The Semitone Mystery"

Let's start with a warm-up exercise using three fingers of the right hand.

We'll start by ascending and descending the white and black keys. Check out the illustrations until you understand how the fingers are supposed to move, then get started!

You'll find it easier to play if you bend your fingers slightly.

Go back to the beginning and play it again.

# Step 02

## Diligent Practice Time

Right! Now that we're warmed up let's try playing along with the orchestra in 3/4 time.

The melody will be built up little by little.

Compare each line... notice that many of the shapes formed by the notes are very similar.

Short break

Almost done 

# Step 03

## Warm-up Exercise - "Basic Accompaniment"

And now a warm-up exercise for the left hand.  
It's important to spread your fingers widely from the start.  
Don't play the black keys too strongly.

# Step 04

## Diligent Practice Time

Connect the notes smoothly, as if the left hand were passing them to the right hand. You'll be able to play smoothly if you move the left hand into position for the next phrase as soon as it finishes playing the first phrase.

# Step 05

## First Half Review

You've reached the halfway step! Have you learned all the material provided in the preceding steps? Now let's go back and play through all the first-half exercises. If you find that you're having trouble playing any of the material, go back and review the steps using the Step Map as a guide.

# Step 06

## Diligent Practice Time

OK, let's begin the second half!

You'll be able to play the melody nicely if you lift your fingers from the keyboard between the slurs.

It might be easier to grasp the key release timing if you sing along with the melody.

Don't panic and play too strongly where the left hand has to play short notes.

Always have left-hand finger 5 ready to play the next note!

# Step 07

Jump to the next E!

And again!

## Warm-up Exercise - "The Jump Competition"

The first note has a staccato dot.

Spread your fingers wide and jump quickly to the next note!

# Step 08

## "EEEEEE!"

The only note in this step is E!

Make the connection between the left and right hands as smooth as possible.

# Step 09

## “Left! Right! Left! Right!”

Play “D# E” repeatedly, alternating the left and right hands.

Have the next hand ready in position to play D# so you won't have to rush.

# Step 10

## Second Half Review

Try playing all the way through the second half.

As we did after the first half, if there are places you can't play with confidence go back and review the steps.

# Step 11

## Play the Whole Song!

This is the finishing step!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

# Für Elise

~ With Step Map ~

These steps focus on the middle section that wasn't included in the basic version of the song. The right hand plays quick 16th notes in succession, but if you keep your shoulders and arms relaxed and match the timing to the left-hand notes it shouldn't be too difficult.

The middle section is to be played brightly and moderately loud. Play the other sections in a gentle, flowing manner to add expression to the song overall.

**Poco moto**

The musical score consists of two systems of piano notation. The first system is marked *pp* and *Poco moto*. It features a treble clef with a key signature of one sharp (F#) and a 3/4 time signature. The right hand plays a melodic line with 16th-note runs, while the left hand provides a bass line. Fingerings are indicated by numbers 1, 2, 4, and 5. A first ending bracket is shown at the end of the section.

## Dotted Rhythm Practice

Dotted rhythms like this might look difficult, but you can make them easier to understand (and fun) if you match the beats up with words.

In the example below the circled syllables and words correspond to notes on the score.

Play this with a gentle touch. No need to pound the keys!

The birds in (the) tree-s With voi-ces (that) plea-se A day in (the) su-n And we'll have (some) fu-n

# Step 02

## Dotted Rhythms and Scales

If you sing along while playing scales you'll be more prepared to play each note and will be able to play smoother.

Keep your fingers under control!

# Step 03

## Special Practice - "For a Steady Left Hand"

To make sure that fingers 1 and 5 of your left hand don't waver too much, try placing a coin on the back of your left hand. Don't let the coin fall off while you're playing!

Play the last C and E softly.

What's going to happen?  
How long can you keep this up?  
Do your best to complete the exercise.  
The trick is to keep it steady!

# Step 04

## "The Steady Left Hand Meets the Relaxed Right Hand"

Let's try adding the right hand to the left-hand part you practiced in Step 03.

If you got through the last exercise without giving up, this will be easy!

# Step 05

## Diligent Practice Time

Play this while counting “one, two, three” in time with the metronome.

one, two, three!

1 3 3 2 5

One, two, three, one, two, three, one, two, three

Next, join the parts!

one, two, three!

1 3 3 2 5

# Step 06

## “Suspense Theater”

This exercise uses only four notes: B, D<sup>♯</sup>, E, and F. Place your fingers on the corresponding keys before you begin, then you’ll be able to play the exercise smoothly.

# Step 01

## The First Step (The first 2 measures)

First locate the keyboard position then try playing slowly.

To begin, relax and find the keyboard position.

The keyboard position is the same as for the score above!

...no problem, that's the first two measures done!

# Step 02

## The Next Step (The next 2 measures)

As in the last step, begin by locating the keyboard position.

Find the keyboard position just like you did for the first step.

The keyboard position is the same as for the score above!

And that's the next 2 measures done!

# Step 03

## The First and Next Steps Together! (Beginning to 4th measure)

Now connect Step 01 and Step 02!

You've played up to here!

# Step 04

## The Last Step! (That was quick...)

The left-and-right-hand notes descend one at a time.

And once again... locate the keyboard position.

The keyboard position is the same as for the score above... (this is becoming familiar too)!

Getting close to completion.

# Step 05

## Repeat the Last Step!

If you can play this pattern you're almost there!

You should be able to see those twinkling stars by now.

# Step 06

## Play the Whole Song!

This is the finishing step!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

## Bonus Event: The Twinkle Twinkle Little Star Special!

Welcome to the Twinkle Twinkle Little Star Special!

How about a completely different version?

Relax, and try not to let the accompaniment affect what you're playing. There's a black-key note that we haven't used before, but you'll be fine once you learn it.

Off you go... enjoy your journey into some new musical territory!

## Special Practice - "Sunday at Yamaha"

Why don't we refresh ourselves with a change of pace?

Play along with the instrument with a happy, rhythmic feel.

Now you're rockin'!

The Cheer Squad Rejoices

It was worth coming  
all the way for this!

# Step 09

## Diligent Practice Time

Now that you've had some fun with Step 08, you should be playing easily with your left hand.

Pay attention to the chord timing as you play this.

# Step 10

## Play the Whole Song!

This is the finishing step!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

Both the left and right hands play monophonic lines.

If you look at the melody you'll notice that the same shapes are repeated. The first note is different, but the fingering is the same! Knowing that makes it sound easy, doesn't it?

Listen to the example over and over until you learn the melody, then practice will be easy.

# Step 01 Warm-up Exercise - "Winter Sonatine"

Eh? This is practice for the Turkish March?

Start playing with finger 4, but keep finger 1 close by and ready. That's the key to playing this part smoothly.

Now enjoy a romantic moment with the orchestra!

# Step 02 Diligent Practice Time

When you're properly warmed up, it's time to tackle the melody.

Don't forget the key to playing it smoothly that we just learned.

...two, one!

# Step 03 Diligent Practice Time

Try playing with both hands.

Play the left-hand eighth notes gently. Release the left-hand and right-hand notes simultaneously for a clean, synchronized sound.

...two, one!

# Step 04

## Special Practice - "The Special March"

Try playing the Special March melody using the "finger over" (page 65) technique.

Enjoy the energy in the second half!

...two, one!

Finger... over!

# Step 05

## Diligent Practice Time

Don't rush the right-hand "G-G" and "E-E" eighth notes.

Play the last quarter notes of the left-hand "C-E-G" and "A-C-E" parts with care, releasing them simultaneously with the right-hand notes.

Release simultaneously

# Step 06

## “Technical Point!”

A number of techniques that are unique to the piano such as “finger ready” and “finger change” (page 65) are used in the right-hand melody. Prepare early for the next note to be played, and play each note carefully.

Now connect the parts together...

# Step 07

## Diligent Practice Time

Resist the urge to rush when playing continuous eighth notes.

Listen to the orchestra carefully and play along!

...two, one!

# Step 08

## Special Practice - "Share the Stage with a Pianist"

Just a little more and we'll be done!

Try playing this left-hand part along with a pianist.

Wait a minute... the intro melody is the Turkish March too?

I'm in charge of the intro  
(check out my "Für Elise" and  
"Ode to Joy" as well).

The song you're practicing  
is actually one of mine. Thank you!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

# Turkish March

~ With Step Map ~

This score includes polyphonic and octave parts that are essential to give the song momentum, and they're a large part of the song's appeal too. The distinctive left-hand accompaniment must be played at a steady tempo. Don't let your shoulders and arms get tense from the 32nd measure, and play with confidence.

61

Musical score for measures 61-65. The score is in 3/4 time and D major. It features a repeating eighth-note pattern in the bass line and a melodic line in the treble with triplet markings.

# Step 01

## Diligent Practice Time

We'll start with the left-hand accompaniment.

Bend finger 5 slightly and play firmly to sound (and look) great!

The orchestra will back you up in a variety of ways in each step. Enjoy the interplay, and have fun!

Short break

# Step 02

## Diligent Practice Time

Make a fist with your hand above the keyboard then gently open your fingers and you're ready!

Keep your fingers steady and under control when changing notes.

# Step 03

## Warm-up Exercise - "A Nap by the Stream"

{ is the symbol for "arpeggio".

Before starting the exercise play the A-E-A notes together the check out their sound.

If you sort of "strum" the notes in order from bottom to top you're playing an arpeggio.

# Step 04

## "Power March"

When you're done with your nap, it's time for a lively march.

# Step 05

## Diligent Practice Time

The right hand plays plenty of black keys in this step. Position your hand toward the back of the keyboard before starting to play. Spread your left hand wide from the start, then “grab” the keyboard with fingers 5 and 1 and you’ll get the hang of it.

The left hand is going to get busy, but stay with it! The right-hand part is the same as above.

## Step 06

### Special Practice - "Grace Notes"

It's time to practice grace notes. The key is "keep it close!"

The grace note should be played softly just before the main note, almost right on top of it. But don't think too much about it. Just let it happen naturally.

Short break

## Step 07

### Play the Whole Song!

This is the finishing step!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

# Ode to Joy

~ With Step Map ~

In this version you play monophonic lines with both hands. No tricky techniques are required. If you know the melody you'll be fine. Ready? Away we go.

Step 11 From here... →

**Maestoso** Step 01 Step 03 Step 02

Step 04

Step 05 Step 08 Step 06 Step 09 Step 07

Step 10 Step 11 ...to here

You'll only play the colored-in keys in the first half.

Position your hands here and begin!

## Step 01 Basic Ascending and Descending

The climb from E to G and then the descent from G to D are the basis of the melody. If you can play this well, the rest is easy.

## Step 02 Dotted Rhythm

This melody line, including a dotted note, follows the melody of Step 01.

Sing along with the example to get a feel for the rhythm.

La la la la la - la -

## Step 03 "And all of a sudden... both hands!"

OK. So lets play with both hands.

Do the exercise in this order:

1. Connect Step 01 and Step 02, practicing with the right hand only.
2. Add the left-hand C-G-C-G line.

That's all there is to it.

# Step 04

“CCDE? – ? ? –”

How did you do in Step 03?

Now that you've done the basic ascending and descending lines, here's another pattern to practice.

What's different from the steps we've already practiced?

# Step 05

“Change”

And now, the second half.

This part of the melody signals that a change is about to occur. Doesn't it give you the feeling that a new chapter of the story is about to begin?

# Step 06

**Diligent Practice Time**

This melody line follows the one we learned in Step 05. Don't try to rush when you get to the last G. Have finger 1 in position and ready a little early.

# Step 07

## “Step On the Black Key”

This is the left-hand line that goes with the Step 06 right-hand line.

The notes ascend in sequence from G, with one black key along the way.

Step on the black key along with the orchestra.

# Step 08

## “Play with Both Hands”

Now you're ready to play with both hands.

What do you suppose the order of the exercise is?

(Hint: check out Step 03).

Answer:  
1. Connect Step 05 and Step 06, practicing with the right hand only.  
2. Add the left-hand G-G-G-G-G-G-G-G line.

# Step 09 “Zig-Zag Path to E”

Before getting into the final four measures, we come across a very distinctive syncopated phrase. Sing this zig-zag “C-D-G, E” line.

# Step 10 “Right Hand then Left Hand”

Here’s the syncopated E from Step 09, and the left-hand note that follows. We’ll also play a little of the ensuing melody in the second half.

First, the right and left hands in sequence.

Then, right hand, left hand, and right hand again.

# Step 11 “Right-hand Rehearsal: String Ensemble Version”

You’ve done well up to Step 10, so let’s try playing the whole song all the way through. But before we do that, let’s rehearse by playing just the right-hand part with beautiful accompaniment from a string ensemble.

If you find it difficult to play along with the orchestra, use the metronome instead.

# Step 12 Play the Whole Song!

This is the finishing step! Don’t be afraid of making mistakes. Just concentrate on playing the entire song from start to finish. Practice this with the lessons learned in each step in mind, and gradually you’ll master the whole song.

Play the melody with a stately, grandiose feel. Add some dynamic expression for a more musical performance. If you can play the right hand part from the basic version you're halfway there. The following steps focus on the left-hand accompaniment and the third and sixth intervals used in the melody line.

## Step 01 Warm-up Exercise - "Left-hand Power"

Let's do a warm-up exercise for the left hand.

Play the phrase that descends in semitones while holding the bass note with finger 5. Enjoy the smooth harmonic transitions that occur when you play along with the orchestra.

## Step 02 Diligent Practice Time

Let's practice the first four measures of the left-hand part.

Play the notes for their full duration.

## Step 03 Diligent Practice Time

These are the four measures that follow the part practiced in Step 02. The movement is a little more complex, but the warm-up exercise we did above should make it easy.

## Step 04 Parallel Thirds - "Gently Flowing"

A number of third intervals appear in sequence in the left-hand part of the melody middle section. Connect them as smoothly as possible.

# Step 05

## “Right-hand Part Practice”

At last we come to the right-hand part.

In Step 07 we'll use both the right and left hands to play the harmony parts. But here we'll just practice the right-hand part.

# Step 06

## “Left-hand Part Practice”

And this is the part that the left-hand will play.

# Step 07

## “Both Hands Together”

Now let's play both parts together.

The left and right hands cooperate to create powerful harmony!

# Step 08

## Special Practice - "Meet Marimba Man Junior's Friend's Aunt: Follow the Leader"

Practice playing successive sixth intervals.

When the rhythm begins listen to the phrase played by the celesta, then play it yourself.

...and the rest with energy!

Oh?

You haven't met Marimba Man Jr. yet?

I'm sure you'll run into him somewhere. Tee-hee.

His father is Marimba Man, an excellent marimba player.

And he's a fine person too!

Oh yes, speaking of marimbas...

## Step 09 Diligent Practice Time

If you enjoyed Step 08, this will be no problem.

## Step 10 Diligent Practice Time

The left hand plays thirds while the right hand plays sixths. This section requires concentration to play well, but it's also the most impressive sounding section of the song.

If you have trouble playing any section, go back to the appropriate steps and practice again.

# Step 11

## Parallel Thirds - "In Paradise"

Now let's practice playing parallel thirds with the right hand, with beautiful orchestral backing.

Start by playing just the top note to get a feel for the line, then after a short break add the note a third below.

Short break

# Step 12

## Diligent Practice Time

This is the last key section for the right hand. It starts with the syncopation we first saw in the basic version.

Practice through to the end of the melody.

# Step 13

## Play the Whole Song!

This is the finishing step!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

### Song No.083

#### **The Entertainer ~ With Step Map ~ .....124**

This is one of those songs that aspiring piano players long to master. The characteristic left-hand accompaniment and attractive melody are a bit too tricky for the beginner to play all at once. We've made it much easier by creating an arrangement in which the left-hand accompaniment has been reduced to just the essential bass notes.

Compared to the basic version, this arrangement is much closer to the original. It will be a challenge both in length and the number of notes that must be played. The difficult "stride" left-hand accompaniment and the parallel-sixth melody line are real attention getters. It's definitely worthwhile taking the time to master this one!

This is also a section of the intro. The last few notes are different from the shape we learned in the last step.

Watch out for the black key!

## Step 03 “Semitone Return Trip”

Practice going and returning in semitone steps. Finger 1 is the key.

## Step 09 “Percussion Joins In”

Just keep repeating ECDE-CDC and... hey! Where did those rhythm instruments come from?

## Step 10 Diligent Practice Time

Pay attention to your fingering on the black keys.

## Step 11 “The Signature Phrase”

Have you mastered Step 09 and Step 10? If you have you're ready to play the song's signature phrase with both hands.

Don't let either hand pull the other off time.

In this arrangement harmony is added a sixth below the melody line of the basic version for a richer texture. The 16th notes in the middle section look difficult, but if you practice them thoroughly first with the right hand only you'll get through it with no problem. Practice each hand individually, and then when you have a good feel for the parts put them together. When playing with both hands it's very important to keep up a steady tempo with the left hand.

# Step 01 "Sixths Warm-up Exercise"

Practice playing sixths until you can do it naturally. You'll encounter black keys and tempo changes along the way!

①

The second time is a sprint!

Move your hand up an octave during this short break!

②

Once again from the beginning... after a very short break.

# Step 02 Diligent Practice Time

This is the same melody segment that we learned in Step 05 of the basic version. This time we'll play it in sixths.

# Step 03

## “A New Challenge... Part 1”

This is a basic exercise for the left hand.

First play the three-note chords to learn their positions. Learn the finger positions and they'll be easy to play.

Short break

# Step 04

## “A New Challenge... Part 2”

Do this in the same way as the last step. There are a couple of black keys and it's a little more complex, but you can do it!

Short break

# Step 05

## Put It Together

Let's take what we've learned so far and play it all through. It might be a good idea to practice each hand individually first.

The musical score consists of three systems of piano notation. Each system has a treble and bass clef staff. The first system includes a repeat sign and a first ending bracket. The second system includes a first ending bracket. The third system includes a first ending bracket, a first ending section, and a second ending section. Fingerings are indicated by numbers 1-5 above or below notes. The key signature has one sharp (F#) and the time signature is 2/4.

# Step 06

## “A Musical Tour”

If the fingering seems difficult, notice which notes in each chord also appear in the next chord. That will be your clue.

First, get your fingers ready by playing this twice.

Then play this rhythmically as many times as necessary until you feel comfortable with it.

# Step 07

## Diligent Practice Time

Is it tough to play this with both hands? You really need to master this, because it will sound great!

## Step 08 “In Vintage Fusion Style”

The initial rhythm is the key to playing the two-note melody in a cool way.

Begin by learning the timing.

Short break

## Step 09 “One Thing at a Time... Part 1”

Most players are intimidated by continuous sequences of 16th notes. If you practice one short section at a time it becomes easy!

Stop

Stop

## Step 10 “One Thing at a Time... Part 2”

The rhythm is a little more complex than the last exercise. Learn the individual sections one group of notes at a time.

# Step 11

## Diligent Practice Time

Approach this exercise in the same way as Step 06.

When you get comfortable with this, try to read ahead on the score a bit.

# Step 12

## “The Toughest Challenge!”

Practice the climax of the middle section. When you can play this you're almost done!

# Step 13

## Play the Whole Song!

This is the finishing step!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

## Step 01 The Melody Begins

The melody begins with an auftakt. The first note is played with finger 1, and should not be played too strongly. Play a little stronger as the notes get higher to build up the mood.

## Step 02 Diligent Practice Time

The “finger ready” and “finger over” (page 65) techniques are used here. Prepare for the next note a little early to make playing easier.

Consider each measure as a group of notes. It will be easier to play if you keep the image of the keys you'll play in each group in your mind before playing the first note.

one, two, three, four!

# Step 04

## Play with Both Hands

It's time to play with the left and right hands together. Play the left-hand part carefully while listening to the metronome. That will allow you to play the right-hand part with a relaxed feel.

Synchronize

The image shows two systems of musical notation for the piano accompaniment of 'Londonderry Air'. Each system consists of a treble clef staff and a bass clef staff. The first system includes fingerings (1, 2, 3, 1, 2, 3, 1) and articulation marks (accents) above the notes. The second system continues the piece with similar fingerings (1, 3, 1, 5, 4) and articulation marks.

## Step 05

### Special Practice: Rhythm Combinations - "Meet Marimba Man Jr."

The right hand plays eighth notes while the left hand plays a quarter note, then the right hand plays a quarter note while the left hand plays eighth notes... what's this exercise for?

Play this a number of times after the lead-in. Have fun trying not to get pulled off time by the melody playing in the background.

The image shows a rhythm exercise in 2/4 time. The top staff has three eighth notes with 'ta ta ta~' above them. The bottom staff has a quarter note followed by two eighth notes with 'ta~ ta ta' below them.

I can't see the point of this exercise!

Why can't we just have fun?

Junior! Stop fooling around!

...I have to admit I was enjoying playing this myself...

Steps 06 and 07 begin on these notes. Ready?

## Step 06

### Rhythm Combinations: Ex. 1

Try to connect the right and left hand eighth notes smoothly. Don't play the left hand finger 1 notes too loudly.

This should be easy if you've done Step 05.

The number of notes increases from top to bottom.

Treble clef for the left hand too!

## Step 07

### Rhythm Combinations: Ex. 2

The F# played by the left hand is a black key. Before playing the exercise, play the G, A, and F# keys together to get a feel for the finger positions.

This should be easy if you've done Step 05!

The number of notes increases from top to bottom.

Bass clef for the left hand here!

## Step 08 Diligent Practice Time

Practice repeating the G note. You'll get a nice uniform sound even if you change fingers if you play in about the same position.

## Step 09 Special Practice - "Finishing Up in Style"

The melody closes with a series of 8th notes.

Learn this section by dividing into to short segments that you can practice individually. When you're ready, play then entire section.

## Step 10 Play the Whole Song!

### Syncopated Melody

Here we'll learn a syncopated section of the melody.

Try not to lift your fingers from the keyboard. Listen the glockenspiel  in the backing orchestra, it will provide the timing guide you need.

## Step 04

### Diligent Practice Time

Here a dotted rhythm and auftakt are added to Step 03.

Play non-syncopated notes slightly softer to bring out the beauty of the melody.

one, two!

# Step 05

## Timing Both Hands

Now we'll bring in the left hand for a two-handed performance. It's important to synchronize the left and right hands at the points marked (Here).

Play the ends of the phrases gently.

# Step 06

## Diligent Practice Time

The way you hold your fingers is essential to playing the left-hand polyphony well. Don't hold your fingers straight. Keep them slightly bent.

Keep the harmony notes synchronized so they sound as one.

one, two!

## Step 07 Special Practice - "Find a Cue!"

When playing with the Learn to Play Orchestra, listen to the harp for your cue to exit from the fermata . Practice listening for the right cue (!) so you can play in tight ensemble with the orchestra.

## Step 08 Diligent Practice Time

The left hand also plays a black key. This will go smoothly if you position your left hand a little toward the rear of the keyboard before playing the first A.

## Step 09 Play the Whole Song!

This is the finishing step!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

# The Last Rose of Summer

~ With Step Map ~

Overall the 8th notes should be played softly to make the song flow smoothly. Even difficult phrases become easier if you sing the melody as you play. Always be aware of the mood you're creating with the left-hand accompaniment.

The musical score is presented in two systems, each with a treble and bass clef. The tempo is marked 'Andantino' and the dynamics 'mp'. The first system covers measures 1-4. Measure 1 has a triplet of eighth notes in the treble and a bass line starting on a 5. Measures 2-4 feature a melodic line in the treble with fingerings 1, 1, and 1, and a consistent eighth-note accompaniment in the bass. Shaded boxes highlight 'Step 01' (measures 2-3), 'Step 02' (measures 3-4), and 'Step 03' (measure 1). A downward-pointing triangle is placed above measure 1. The second system covers measures 5-8. Measure 5 starts with a 7. Measures 6-8 continue the melodic and accompaniment patterns. A downward-pointing triangle is placed above measure 6.

Musical score for measures 27-30. The piece is in 3/4 time. The right hand features a melodic line with a descending eighth-note pattern, while the left hand provides a steady eighth-note accompaniment. A dynamic marking of *mf* is present at the beginning of the system. A hairpin crescendo is shown over the first two measures, and a hairpin decrescendo is shown over the last two measures. A fermata is placed over the final note of the right hand in measure 30.

Musical score for measures 31-34. A grey box labeled "Step 01" highlights the first two measures. The right hand continues the melodic line, and the left hand continues the eighth-note accompaniment. A dynamic marking of *mf* is present. A hairpin decrescendo is shown over the first two measures, and a hairpin crescendo is shown over the last two measures. A fermata is placed over the final note of the right hand in measure 34. The tempo marking *rit.* is indicated at the end of the system.

Musical score for measures 35-38. The right hand continues the melodic line, and the left hand continues the eighth-note accompaniment. A dynamic marking of *mp* is present. A hairpin decrescendo is shown over the first two measures, and a hairpin crescendo is shown over the last two measures. A fermata is placed over the final note of the right hand in measure 38. The tempo marking *meno mosso* is indicated at the beginning of the system, and *poco rit.* is indicated at the end.

Musical score for measures 39-42. The right hand continues the melodic line, and the left hand continues the eighth-note accompaniment. A dynamic marking of *mp* is present. A hairpin decrescendo is shown over the first two measures, and a hairpin crescendo is shown over the last two measures. A fermata is placed over the final note of the right hand in measure 42. The tempo marking **Tempo I** is indicated at the beginning of the system, and *rit.* is indicated at the end.

# Step 01

## Special Practice - "The Starting Rhythm"

This is a collection of auftakt melodies.

Try singing "La~di da~" while playing the dotted rhythms.

# Step 03

## Special Practice - "Meet Marimba Man: Follow Me!"

Let's practice the basic left-hand accompaniment pattern.

When you hear the rhythm, follow Marimba Man and copy each phrase he plays.

There will be a number of variations, so listen carefully.

Is Marimba Man a teacher to be respected,  
or merely a trickster?

# Step 04

## Diligent Practice Time

Don't play too heavily with the right hand. And try to keep the volume of the left-hand 8th notes consistent.

# Step 05

## Turn Practice

Next we'll practice an ornamental turn. The melody line consists only of A, B, and C. The key is to bend your fingers slightly and play near the rear of the keyboard.

Don't rush. Play each end every note as distinctly as you can.

Conceptually, a turn might look something like this.

# Step 06

## Diligent Practice Time

Match the left-hand line to the right-hand line as closely as possible.

When both hands are playing 8th notes, synchronize the timing carefully. If you hear beautiful harmony you're getting it right!

# Step 07

## Special Practice - "Repeating Shapes"

Compared to the first half, the range of notes used in the second half accompaniment is wider. The notes played by finger 5 will change, but let's make it so that the same shape repeats no matter where you start.

Prepare for the next note as early as possible.

①

the next note...

②

the next note...

③

the next note... the next note...

④

# Step 08

## Diligent Practice Time

Keep playing smoothly during the polyphonic section.

## Step 09 Diligent Practice Time

This exercise includes grace notes, dotted rhythms, and polyphony.  
Listen to the orchestra carefully, and play while singing the melody.

Musical notation for Step 09, right hand. The piece is in 3/4 time. The first line contains two measures: 'one, two!' followed by a quarter note G4 with a grace note F4, and a quarter note A4 with a grace note G4. The second line contains two measures: '...three, one!' followed by a quarter note B4 with a grace note A4, and a quarter note C5 with a grace note B4. Fingerings are indicated: 4-1 for the first measure, 4-1-2 for the second, 5-1 for the third, and 5-1 for the fourth. The piece ends with a repeat sign.

## Step 10 Diligent Practice Time

Synchronize both hands from the first left-hand note. The left-hand line will go smoothly if you start with your fingers spread as if to play C, G, and E all at once.

Musical notation for Step 10, both hands. The piece is in 3/4 time. The right hand part is identical to Step 09. The left hand part starts with a whole note chord of C4, G3, and E3. The notes are marked with fingerings: 5 for C, 1 for G, and 1 for E. The piece ends with a repeat sign.

## Step 11 One More Diligent Practice Session

The right hand phrase should be played without hesitation.  
The second left-hand C-G-E-C-F should also be begun at a leisurely pace.

Musical notation for Step 11, both hands. The piece is in 3/4 time. The right hand part is identical to Step 09. The left hand part starts with a whole note chord of C4, G3, and E3. The notes are marked with fingerings: 5 for C, 1 for G, and 1 for E. The piece ends with a repeat sign.

## Step 12 Play the Whole Song!

This is the finishing step!  
Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.  
Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

## Step 02

### The Second Melody

The same applies here. Grasp the overall flow then fill in the blanks.

## Step 03 Warm-up Exercise - "The Chinese Princess"

It's time to warm up the left hand!

Be sure to hold the bottom bass notes for their full duration.

## Step 04 Diligent Practice Time

Put the warm-up exercise to use and try this. Counting "one, two, three" out loud while playing will make it easier to learn the rhythm.

## Step 05 Warm-up Exercise - "Left and Right in Sync"

This exercise will help you to synchronize the left and right hands. First, concentrate on synchronizing the first beat in each measure.

## Step 06 Diligent Practice Time

Here we'll play a left-hand bass line along with the right-hand melody. The left-hand part changes to the actual accompaniment pattern in the second half. Carefully match the timing of the notes on the first beat of each measure throughout.

## Step 07 "Before a Chord Change"

Prepare to play the next chord ahead of time.

Short break

## Step 08 Diligent Practice Time

This is the last right-hand practice step. Start with the overall flow then fill in the blanks.

## Step 09 "A Serene Ending"

This is the song's ending. First check the finger numbers and the notes they play. The rhythm changes towards the end.

## Step 10 Play the Whole Song!

This is the finishing step!

Don't be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you'll master the whole song.

## Step 01 Diligent Practice Time

Begin with the right hand. Play while feeling the resonance of each chord and interval, and keep it up when the melody comes in the second half.

## Step 02 Diligent Practice Time

Next try out the left-hand notes.

## Step 03 Diligent Practice Time

And finally, we're ready to play with both hands. Make the chord changes in each measure as smooth and synchronized as possible.

# Step 04 Special Practice: Grace Notes - "Follow the Guitarist!"

And now for some special grace note training. Copy whatever the guitarist plays.

Now that was a cool jam session!

# Step 05 Diligent Practice Time

Note that the left-hand and right-hand lines move in parallel. Play so that the descent to each successive note is clear.

Let's descend together, one step at a time...

Both of you are doing great!

# Step 06 "Shh, ta ta ta~"

Listen for the drum cue and play "shh, ta ta ta~". Of course you won't actually play or hear "shh" (it's a rest), but you should be able to feel it.

# Step 07 “Triplets!”

Play this tightly with the band and you’ll really impress the crowd. Play with a moderately heavy touch, and try saying “da~ da!” while playing the triplets.

# Step 08 “Glissandos Everywhere”

Glissandos can be fun too! Let’s learn their timing. Try to keep the intervals clean.

# Step 09 Play the Whole Song!

This is the finishing step!

Don’t be afraid of making mistakes. Just concentrate on playing the entire song from start to finish.

Practice this with the lessons learned in each step in mind, and gradually you’ll master the whole song.

# London Bridge

Traditional

The musical score is presented in a grand staff format with two staves per system. The right hand (RH) is in treble clef and the left hand (LH) is in bass clef. The time signature is common time (C). The score is divided into ten systems, each with a circled label (S01-S10) indicating a specific fingering for the right hand. The RH part consists of a single melodic line with various rhythmic patterns and articulations. The LH part provides harmonic support with chords and moving lines. Fingerings are indicated by numbers 1-5 above or below notes. Some notes have slurs or accents. The piece concludes with a double bar line at the end of the final system.

System 1: RH starts with a quarter note G4 (fingering 5), followed by eighth notes A4, B4, C5, D5, E5, F5, G5. LH is silent.

System 2: RH continues with quarter notes G4, F4, E4, D4, C4. LH is silent.

System 3: RH has a quarter rest. LH has a quarter note G2 (fingering 2) with a slur and a quarter note G2 (fingering 5) with a slur.

System 4: RH has a quarter rest. LH has a quarter note G2 (fingering 2) with a slur and a quarter note G2 (fingering 5) with a slur.

System 5: RH has a quarter rest. LH has a quarter note G2 (fingering 2) with a slur and a quarter note G2 (fingering 5) with a slur.

System 6: RH has a quarter rest. LH has a quarter note G2 (fingering 2) with a slur and a quarter note G2 (fingering 5) with a slur.

System 7: RH has a quarter rest. LH has a quarter note G2 (fingering 2) with a slur and a quarter note G2 (fingering 5) with a slur.

System 8: RH has a quarter rest. LH has a quarter note G2 (fingering 2) with a slur and a quarter note G2 (fingering 5) with a slur.

System 9: RH has a quarter rest. LH has a quarter note G2 (fingering 2) with a slur and a quarter note G2 (fingering 5) with a slur.

## Touch Tutor

Musical expression is the result of an effective use of dynamics, tempo, and phrasing. In this category, how hard or soft you play the keys is referred to as “Touch” and can be used to express dynamics.

Using “Touch” freely widens the power of expression in your playing. Give it a try.

\* Refer the strength level displayed in the LCD and use “touch”.

To play with the same voice that is used in the performance data, select voice number “000” (Song OTS Mode).

# Chord Study 12 Songs—an Introduction to Chords

## ● What are Chords?

A chord is a group of notes, usually three or more, that produce harmony when sounded together. Developing an understanding of chords lets you play a wider variety of songs on instruments equipped with the style function.

## ● Lets Try Some Chords

Rather than try to explain how chords work, its better to have an understanding of what the different chords sound like. Chord studies 01–07 show how to finger some of the more common chord types and give you a chance to hear what they sound like. Chord studies 08–12 show how to play some basic chord progressions. The more you play through the progressions the smoother your playing will get, so repeat often.

## ● How Did You Do?

We hope you found these chords and chord progressions interesting. Take this opportunity to play a variety of chords and hear what they sound like.

# Chord Study 08

This exercise uses major chords to familiarize yourself with playing chord progressions.

The musical score is written in 4/4 time with a tempo of 110. It consists of three systems of music. The first system shows the piano accompaniment with a treble clef and a bass clef. The right hand has a whole note chord (C) with a fingering of 2. The left hand has a whole note chord (C) with a fingering of 2. The second system shows the melody line in the treble clef and the piano accompaniment in the bass clef. The melody line has a quarter note (C), a quarter note (D), and a quarter note (E). The piano accompaniment has a quarter note (C) with a fingering of 1, 3, 5, and a quarter note (D) with a fingering of 1, 3, 5. The third system shows the piano accompaniment in the treble clef and the piano accompaniment in the bass clef. The right hand has a quarter note (C) with a fingering of 1, 3, 5, and a quarter note (D) with a fingering of 1, 3, 5. The left hand has a quarter note (C) with a fingering of 1, 3, 5, and a quarter note (D) with a fingering of 1, 3, 5.

# Chord Study 09

This exercise uses minor chords to familiarize yourself with playing chord progressions.

The musical score is divided into three systems, each with a piano accompaniment and a melody line.

**System 1:** The piano accompaniment starts with a tempo marking of  $\text{♩} = 70$  and a 2-measure rest. The melody line consists of four measures of whole chords: Em, Dm, Em, and Dm. Fingerings are indicated: 1-3-5 for Em and 1-3-5 for Dm.

**System 2:** The piano accompaniment continues with four measures of whole chords: Em, Dm, Em, and Dm. Fingerings are indicated: 1-3-5 for Em and 1-3-5 for Dm. The melody line consists of four measures of eighth-note chords: Em, Dm, Em, and Dm. Fingerings are indicated: 1-3-5 for Em and 1-3-5 for Dm.

**System 3:** The piano accompaniment continues with four measures of whole chords: Dm, Em, Dm, and Em. Fingerings are indicated: 1-3-5 for Dm and 1-3-5 for Em. The melody line consists of four measures of eighth-note chords: Dm, Em, Dm, and Em. Fingerings are indicated: 1-3-5 for Dm and 1-3-5 for Em.

# Chord Study 10

This song is in G minor. Try playing the chord progression along with this Tango rhythm.

♩ = 100

The musical score is written for piano and consists of five systems. Each system contains a treble and bass clef. The key signature is G minor (two flats). The tempo is marked as ♩ = 100. The rhythm is a 2/4 Tango style, characterized by a half note followed by a quarter note in the right hand, and a half note in the left hand. The chord progression is as follows:

- System 1: Gm (5 3 1) and F (5 3 1). Fingerings: 2 in the right hand, 1 and 2 in the left hand.
- System 2: Eb (5 3 1) and D (5 3 1). Fingerings: 3 in the left hand, 4 in the left hand.
- System 3: Gm (5 3 1) and F (5 3 1). Fingerings: 1 in the left hand, 2 in the left hand.
- System 4: Eb (5 3 1). Fingering: 3 in the left hand.
- System 5: D (5 3 1), Gm (5 3 1), D7 (5 3 1), and Gm (5 3 1). Fingerings: 4 in the left hand, 1 4 3 4 4 in the right hand, 1 4 1 1 in the left hand.

# Chord Progression

The chords that were introduced in the “Chord Study” category can be combined in a series to create a song. This series of chords is called a chord progression.

Musical styles all have their own standard chord progressions, but first let's try playing some basic chords.

Notes can be combined in a number of different ways to make chords, but the most basic combination is three notes stacked in thirds forming a triad. Stacking notes on top of the root makes a chord based on the root note.

Stacking three notes separated by thirds is called a triad.

The tones are named “root” upon which the chord is based, “third” which is a third above the root, and “fifth” which is another third up.

Use the Chord Progression Category to gain experience using chords. The root is marked as “●” for easy reference.

## Diatonic Triads of a C Major Scale

Let's see how this works using a C major scale.

Using each note of the C scale as a root, two notes are stacked vertically onto each root to form the corresponding chord. These chords are marked with Roman numerals to indicate the scale degree on which each chord is built. So starting with C, it is labeled as I for the 1st degree, D is labeled II for the 2nd degree, E is III for the 3rd degree and so on up to B which is labeled VII for the 7th degree.

A musical staff in treble clef showing the diatonic triads of a C major scale. The notes are C, D, E, F, G, A, B, C. Below each triad is a Roman numeral and a chord name. The triads are: C major (I), D minor (II), E minor (III), F major (IV), G major (V), A minor (VI), B diminished (VII), and C major (I).

Major Chord	Minor Chord	Minor Chord	Major Chord	Major Chord	Minor Chord	Diminished Chord	Major Chord
I	II	III	IV	V	VI	VII	I

\* The same chords are shown in the bass clef below.

A musical staff in bass clef showing the diatonic triads of a C major scale. The notes are C, D, E, F, G, A, B, C. The triads are: C major, D minor, E minor, F major, G major, A minor, B diminished, and C major.

\* Due to the instrument's limitations, some chord names are displayed by their enharmonic chord name.  
ex. Score “D $\flat$ ” → displayed “C $\sharp$ ”

## Basic Rules

Song #164 example:

- **1Note: Play the root note of the chord**

- **2Notes: Play the root + the 3rd interval**

- **3Notes: Play the root + the 3rd + the 5th interval**

- **ALL: Play all the notes that make up the chord.**

Because notes played outside of the keyboard's default chord detection range are not detected, chord inversions are used. You can make a chord inversion by changing the order in which the notes of a chord are stacked.

Press the [PHRASE REPEAT] button and, if nothing has been previously set, "C 1Note" is shown in the LCD. Press the [PLAY] button and each note in the "1Note" score above plays twice, after which the entire exercise repeats.

With the song stopped, press the [+,-] button to select "1Note, 2Notes, 3Notes, ALL" to set how you want to play the chords.

Let's start with the "1Note" setting and use only the root notes. Once you get accustomed to playing the root, it's a good idea to increase the number of notes you need to play by choosing "2Notes, 3Notes..."

\* You can set the key for each song. If the setting is not changed, the default key is C for major songs and A minor for minor songs.

\* The chord progression score is only available with the "ALL" setting.

Knowing how to play chords makes playing the instrument that much more enjoyable.

Chord playing skills can also help you widen your musical repertoire with commercial sheet music or scores found in the keyboard's "Favorite with Style" categories. Use the Style (Auto Accompaniment) function to play chords with your left hand and the melody with your right hand.
